Bedford Planter

Shown in Peat

Terra Cotta Collection

Campania's glazed and terra cotta planters are hand made from natural clay using traditional artisanal techniques and high-fired at temperatures between 990-1000 degrees centigrade to ensure frost resistance and durability.

Campania's Peat Collection is created from a unique clay mixture with added pigments to create an integral color throughout and is sealed with special finishing techniques.

Please note that actual colors may vary slightly from those depicted here.

Material	Item Description	Item #	Available Colors	Outside Dimensions	Base Dimensions	Planting Dimensions	Approx. Weight
Terra Cotta	Bedford Planter - S/3	115150-12803	(128) Peat				161 lbs/set
Terra Cotta	Bedford Planter - Large	115150-12800	(128) Peat	23" Diam. x 22" H	14.75" Diam.	20.5" Diam. x 21.5" H	81 lbs
Terra Cotta	Bedford Planter - Medium	115150-12801	(128) Peat	19.25" Diam. x 18" H	11.5" Diam.	17" Diam. x 17.25" H	49 lbs
Terra Cotta	Bedford Planter - Small	115150-12802	(128) Peat	15.5" Diam. x 14.5" H	7.75" Diam.	13" Diam. x 13.5" H	31 lbs

Note: Each planter is equipped with drainage holes.

Care & Maintenance/Outdoor Planting Instructions: There is no such thing as a 100% frost-proof planter. The freeze-thaw cycles that occur in winter will cause any water in the container to freeze and expand which may cause the container to crack. It is best to store the item in a dry place out of the elements. Our Glazed and Terra Cotta planters are equipped with pre-installed drainage holes to allow for drainage. The drain holes must be kept clear to maintain the longevity of your planter, especially in climates that undergo freeze thaw cycles in the winter. If you are unable to bring a planter out of the elements: We recommend covering the drain holes with a mesh screen or equivalent to keep debris from clogging the openings; Filling the bottom of the planter with non-porous drainage material; Filling the remainder of the planter with a well-draining soil mix that will not retain water; and lastly, covering the soil with decorative mulch or pine bark to the top rim of the planter to discourage water from pooling on the surface. For indoor use, Campania can source saucers for special orders and plugs are available upon request.

Cleaning Instructions: Campania Terra Cotta planters can be cleaned with mild soapy water. Spray down the surface of the planter where it is dirty and use a lint-free cloth, soft bristle brush or sponge to wipe the surface. Note that it may take several cycles of wiping and drying before the planter is completely clean. Do not pressure wash, use alcohol based cleaners, apply corrosive cleaners or clean with anything abrasive.
